

What your dog wants YOU to know ?

Dear Human

-  I don't like hugs and kisses from children.
-  I don't like to be treated like a stuffed animal and be dressed up in clothes.
-  Please don't leave children alone with me – I am not a qualified babysitter and do not want the job.
-  I don't want every stranger that meets me to pat me or touch me.
-  Please learn to understand my body language. It is how I communicate with you.
-  I need you to help me in situations when I feel uncomfortable or anxious.
-  I am an animal and I don't think like a human.
-  Don't punish me for growling. It is my way of sending a warning – see what is going on around me.
-  If you get me as a pup, socialize me with lots of different situations and people so I am not fearful when I am older.
-  Please spay or neuter me – it reduces my risk of cancer and reduces unwanted behavior issues.
-  Please keep me on heartworm prevention as it protects me from heartworm disease and is caused by a mosquito bite.
-  Treat me as a member of the family and please don't chain me outside or leave me alone in a fenced in back yard all day.
-  If you have me before you have children, please understand that it is overwhelming for me too and I need some space and quiet time away from the commotion just like you.
-  Play ball with me, take me for walks, and give me some exercise.
-  Be a responsible dog owner and I will be your loyal companion – education is key!

Love  the dog
